

Information for incoming Kindergarten and current K-4 Lovejoy, Eunice Smith, and East students

As indicated on the front of the letter, in order to balance enrollment it was necessary to adjust some boundaries impacting current Lovejoy, Eunice Smith, and East students.

SOME STUDENTS WILL MOVE TO THE LEWIS & CLARK/NORTH BOUNDARY:

The boundaries for Lewis & Clark/North will be expanded and will include some locations that are currently part of the Lovejoy, Eunice Smith and East boundaries. Students within these areas will be in the Lewis & Clark/North boundary beginning with the 2016-17 school year.

These areas include some students North of I-255, including portions of Wenzel Rd., Seminary Rd., Seiler Rd., Straube Ln., and some associated side streets. The boundary adjustment also includes some streets South of Homer Adams Parkway, including portions of Washington Ave., Main St., Seminary St., Salu St., and some associated side streets.

Please review the enclosed boundary maps to determine if your home is within the new boundaries.

In addition, the maps and a street listing including specific streets and house number ranges are on the district website at www.altonschools.org.

If you are unsure of your school boundary, new to the district or have an incoming Kindergarten student, please call 474-2600 to confirm your child's school placement for the 2016-17 school year.

K-1 STUDENTS IN THE REMAINING EAST, LOVEJOY, AND EUNICE SMITH BOUNDARIES:

This section applies to students whose boundary area was not moved to the Lewis & Clark/North boundary.

Students in the remaining Lovejoy boundary will attend Lovejoy for K-1.

Students in the remaining Eunice Smith boundary will attend Eunice Smith for K-1.

It was necessary to split the East boundary to determine school of attendance (Lovejoy or Eunice Smith) for K-1 students in the remaining East boundary. For the remaining East boundary, students along the Fosterburg Road corridor and East of Milton Road will attend Lovejoy for K-1. Students in the remaining East boundary who live West of Milton Road will attend Eunice Smith for K-1.

Please review the enclosed boundary maps to determine if your home is within the new boundaries.

In addition, the maps and a street listing including specific streets and house number ranges are on the district website at www.altonschools.org.

If you are unsure of your school boundary, new to the district or have an incoming Kindergarten student, please call 474-2600 to confirm your child's school placement for the 2016-17 school year.
